### Understanding Forest Roads

Most paved forest roads have two digits: 46, 63, 57 etc.  
Most gravel roads have four or more digits: 4660, 6350, 5730 etc.  
You can gauge where a four digit road may be on the district, by looking at the first two numbers:  
road 4660, connects to the 46 road  
road 6350 connects to the 63 road  
road 5730 connects to the 57 road.
